MEBAfinance: New financing models at MEBA

- Best conditions through independent corporate finance advice
- Tailored financing options
- Pioneer in the industry

Westerheim, June 2020 - Metal band saw specialist MEBA offers customers from Germany and Europe as of now and as the first manufacturer in the industry new, independent financing options. The company will no longer pursue the usual approach in the industry of working with a fixed financial service provider. Instead, MEBA is cooperating with one of the leading providers of corporate finance consulting "mietfinanz". „mietfinanz“ is not bound to specific providers, but independently gets the best conditions for MEBA customers from the market.

Leasing? Hire purchase? Or investment credit?

Especially for small and medium-sized companies it is often a challenge to procure machinery in order to survive in the market and at the same time to remain liquid. A tailor-made financing can be a decisive component in this respect. Carsten Oberwelland, Managing Director of MEBA, underlines the importance of individual financing concepts: "The financing of production goods requires flexibility and individuality. What makes sense for one company does not have to fit for another company. Financing strategies are different. We decided to work with "mietfinanz" because it enables us to offer our customers precisely this necessary differentiation and individuality. In addition, the independent position of "mietfinanz" ensures the best conditions."

Using the financing calculator, interested parties can make a quick pre-selection on the MEBA homepage with only 5 clicks to find the financing that suits them best. From "mietfinanz" the customer then receives a tailored financing concept, adapted to his existing structure. The entire spectrum of possible subsidies is taken into account. The customer receives financing outside his own banking circle without future burdening of the working capital lines. Since no negotiations with possible financing partners are necessary, quick purchase decisions can be made. The entire process is guaranteed to run confidentially, data protection is secured and profound support is provided.
